 at 3 P.M. come at 1/2 mile from the
 from the Western and made
 named John Long by Chronometer
 Prickly Port strong breezes from the
 Late part more moderate Lat 33° 2'

Remarks Lundy 26

commences with fresh breeze from the
 SE at 1 P.M. saw the Loner, the outer
 rock to the Eastward bearing East, to
 the West Ship's head, the Loner to the
 Westward Cape St. Marys at 4 P.M.
 the Loner to the East (outermost) bore
 10 1/2 S 12 miles distance when the
 longitude by Chronometer was
 20° 15' East being perfectly correct
 the bearings of the Loner, taken
 4th the 11th at 6 P.M. come up & the
 up the Columbus ahead standing
 got in at 10 P.M. came up & the
 one of 2 P.M. SE.

Initial both strong breezes and a confused
 from the strong neaps

commences with strong breeze from the
 SE and SE with clear view
 the wind starboard to the Southward the
 by Chronometer at 4 P.M. 42° 46' East
 at 12 P.M. calm at 3 P.M. took a breeze
 from the NW. then SE Latitude 23° 14' S

Remarks January 26

commenced with fresh breezes from the
SE at 1 PM saw the Loane, the outer
mouth to the Port and bearing East, to
the west ship's head, the Loane to the
western Cape St. Marys at 4 PM
the Loane to the East (outermost) bore
8 1/2 S 12 miles distance when the
Longitude by Chronometer was
46° 20' 15" East being perfectly correct
by the bearings of the Loane, taken
at 10 the ship at 6 PM came up & the
saw the Columbus ahead standing
in. Then at 10 PM came up & the
at 12 PM 138.

Inner Port strong breezes and a confused
sea with strong squalls

Outer Port moderate breezes from
the SE with a long swell from the
South

Hands employed about the
digging and burying other jobs

Latitude 24° 05' South

Shun you we may have a fair
breeze soon

Remarks Saturday 27

Commenced with light airs from the
 SE and a high swell from the South
 at 4 PM the Longitude by Chronometer
 45° 10' 00" East, but this 24 hours 20
 miles to the west by the current
 as according to the courses steered the
 ship has not ^{any} ~~made~~ ^{made} any headway
 toward the current at 6 PM found it
 setting quite strong to the South

Middle part Moderate breezes from
 the North steered SE at 4 PM the
 wind suddenly shifted to the South
 Latter part strong breezes from the
 South and SE with clear weather and
 sail set saw a great number Hump
 Back Whales Lat 27.20 S

Remarks Sunday 28

Commenced with strong breezes from the South
 and clear weather all day sailing at
 4 PM the Longitude by Chronometer 47° 22' 48"
 Steered East, variation 22 degrees West
 Saw many Finches and Hump Back Whales
 Middle and Latter part strong breezes
 from the SE Lat 26.12 S
 bore to the beam SE by S

27
Remarks Monday 29th
Commences with strong breeze from
the S and squally at intervals
hauled the top of sails

20
Longitude by Chronometer
at 4 P.M. $19^{\circ} 23' 15''$ East, I think
we have had a current to the
W. this 24 hours

2
Middle and Latter part fresh breeze
and clear weather breeze S.W.
Lower $24^{\circ} 35'$
all hands employed towing net very

Remarks Tuesday 30

Commences with moderate breeze from the East
with a smooth sea and pleasant weather
Long by Luner at 5 P.M. $50^{\circ} 2' 30''$ East
Long by Chronometer - $50^{\circ} 55' 30''$ East

8
There is a difference of 53 Miles that I cannot
account for as the Chronometer has kept
correct when made the Lane to the East at
Cape St Marys a few days past, I impute
it to the imperfection of the altitudes of the
Sun and Moon, although to morrow if clear
will ^{confirm} the truth
At 12 P.M. the line started to the N.E. and W.C. tacked
to the East

2
Latter part moderate breeze from the N.E. Lat $23^{\circ} 26'$

Remarks Tuesday 31. 11

Commenced with moderate breezes from the
SE and pleasant weather at 4 P.M. saw
a school of Humpback Whales, at 9 P.M. took
3 along side took one line

Made port moderate breezes from
the South and SE with some rain
at 6 P.M. began to cut, and while cutting
hard rain, heavy thunder, and sharp
lightning, hauled all sail, at 12 P.M.
finished cutting in all three Whales

Remarks Thursday 1. 12

Commenced with moderate breezes from
the NW, West, SW, and South and SE
with overcast weather, at 6 P.M. began
to hail, steered S.W.

Made port moderate and clear
Latter part moderate breezes from
the SE and hard rain, put out
the fires and circled up again
at 11 A.M. 6 hrs 22" S 4 South

Remarks Friday 2. 12

Commenced with moderate breezes from the
SE with hard rain and thunder at intervals
sailed N.E. & E

Made and latter part moderate breeze
breezes from the South to SE and pleasant weather
Late 21-57 South

*

for the morning
which were found to balance for 12.9

Remarks Saturday Nov 30

commences with light airs from the
N. & S. and pleasant weather with a smooth
sea at 4 P.M. fresh hailing 60 bls

for the morning

which were found to be in error of 12.19

The
Remarks Thursday 8

Commenced with moderate breezes from
the N. E. and N. W. at 4 P. M. spoke the
Columbus no air at 4 P. M. the
Log by Chronometer 51.00 G. C. T. headed
to the N. W. and N. W. with a good breeze
from the N. E. and N. W. we have had
more wind this day than we have had
for this four or five days past and
therefore we may take the S. E. breeze
as our business is but small at
this

Initial part moderate breezes from the
S. E. and N. E. at 6 A. M. saw the land
10 leagues off at 7 A. M. the wind moved to
the N. W. to the N. E. No air

Remarks Friday 9

Commenced with moderate breezes from
the North and pleasant weather at 5 P. M.
the wind started to the S. E. backed to the
North the Columbus in company
Left by Jupiter at 8 P. M.
Left South

Initial part moderate breezes from the S. E.
and N. E. at 6 A. M. saw the South part
of St. Mary's Island bearing to the N. E. 12 miles
distance

At 10 AM Calm the South point on end
of the Island bearing N by E compass
10 miles, when the Longitude by Chronometer
was 50° 42' - 45' East which make the
Chronometer 42 miles too far East. At
10 AM Calm South end bearing N by E sounder
23 fathoms survey bottom at 11 AM took
a light air from the N by E to the
South 2 miles had 29 fathoms

December 17th 06 South

Remarks Sunday 10

Calm and squally with rain at intervals
at 4 PM the South end of Bellon's bone
N by E by compass the North end N by E

Middle part a dead Calm at 3 AM took
a line from the E by E at gun sounder
16 fathoms came off thence 12 miles and
the North point of the Island bearing N by E
Long by Chronometer 50° 46' 15' East at
10 AM sounder 19 fathoms North point N by E
at 12 Meridian A bone N by E, all by compass

Remarks Sunday 11

Commenced with moderate breezes from the E by E
and pleasant weather, the Columbus first
in sight astern, at 4 PM the Longitude by E
51° 52' 30' East, at 6 PM Cape Bellon's bone
N by E, Cape Balanich N by E, Chronometer 42 miles
too far East

*

for the morning
before the morning
before the morning

At 10 AM the vessel started to the SE
steered NNE at 10 AM Cape Baldestrom
to the 20 miles pleasant breeze from the
SE and clear weather. Steered NNE at
11 AM brought her to the vessel for
the Columbus being out sight astern
At 12 PM arrived the nearest land
bearing west 20 miles Lat 15° 42' S

Remarks Monday 12
Commenced with fine breezes from
the SE and pleasant weather at
3 PM kept on our course to the NE
Not seeing any thing of the Columbus
after lying by 4 hours I think that they
must see Whales or else had a
different opinion than what we have
experienced. At 4 PM Cape East
bore by compass N 10 leagues distance
steered NNE until 7 PM, then NNE
until 10 PM, then N 10 and North
at 5 PM the nearest land bearing
west 20 miles distance, Steered NNE
at 11 AM being 12 miles from the
Land steered NNE Lat 13° 15' S
Wind NNE and strong Current by compass

Remarks Tuesday 13
Commenced with strong breeze from
the S.W. steering along the Lane
to the N.W. at 12 Miles distant
The Lane to the South of Cape La
is high uneven Land, in some places
towards the Sea shore ~~the~~ it is of
a moderate height and level in some
places, saw fires (or smokes) while
sailing along, Longitude at 3 P.M.
by Chronometer 50. 45 - 45 - East being
the far East of 2 Miles as here to be
mentioned while coasting along this
Island

at 7 P.M. Cape Arden bore N. N. W. 25 miles
Round Island west a little North
Small Island to the North of Round Island
at 8 P.M. pulled up N. E. hauled the top of the
middle sent strong breezes from the S. and
rugged

Remarks concerning the
 terminences with the strong breezes and night
 At 3 P.M. the Long Chero. commenced 30" 36" 34" Part
 a great number of these birds raised the
 flap

hove up and steered N by E at 6 PM
saw the breaches of Whales along way
off, steered N by E

Drizzle with strong breezes from the
SE clear weather water very, put
the heliometer in the fore hold
at 10 AM hauled up 8 M &

Lat 3° 21 South

Remarks Thursday 15

Commenced with fresh breezes from the
SE and strong nippings saw a number
of birds Longitude by Ch at 4 PM 49° 59' 15"
At 6 PM tried the current found it setting
N by E 1 knot per hour; please give that we
may see and get Whales soon as it is now quite
calm times, saw but one Whale this day and
that a hump back Whale

Drizzle and Lighter, per moderate
breezes from the SE and very calm
8 AM hauled 12 fish Lat 3° 12 South

Remarks Friday 16

Commenced with moderate breezes and
pleasant weather Longitude by
Chronometer at 4 PM 51° 36' 30"
bunch 9 PM steered N by E at 12 PM tacked
to the SE at 3 PM tacked to the N by E

Latter part finest breeze from the SE with
passing squalls of rain at intervals.
Latitude 6° 31' South

Thermans Saturday 17

Commenced with moderate breeze from the
SE with passing squalls of rain, Saw a great
number of boobys and from a War birds
between other birds, Longitude at 3 P.M.
by Chronometer 52° 46' 30 East, Steered N. 8° W
and at 4 P.M. saw the Island of Boucause
a head at 6 P.M. tacked to the SE and shortly
saw the Island 11 miles off.

This Island if it may be called
an Island, is not more than 60 miles long
a mean sand bank almost level with the
water not a bush of any kind to be seen on
it, Saw guano encorn paper the whole
Island apparently a quarter of a mile from
the shore, Sounded when the Island bore
N. 8° by Comps and had no ground with 50 fath.

This is one of the most solitary spots
~~that~~ I think I ever saw, and whoever should
be so unfortunate to be cast away on it will
hardly survive. Heaved off to the SE West & West until
12 P.M. and then hauled aback the main top sail. At
5 M. on a side all sail and steered to the N. 8°
Latter part. Moderate breeze from the
SE and squally with hard rain.

Remarks Friday Month 8th 1850

Commenced with moderate breezes and a remarkable smooth sea Longitude by Chronometer at 4th P.M. 45.24 Lat took the Ship to the N.E. at 6 P.M. arrived Haverly down all the ice except 20 lbs., not having room enough for it that without breaking out more

Produce port moderate breezes from the S.E. Steered to the East at daylight the N.W. point of Aldabra being 10 1/2 miles distant. Saw a School of Whales chased off shore after them until 10. M. Saw Mountains of Black Fish and puppers, it is my opinion off the S.E. from the Lagoon is a very good place for Whales as the current runs in and out very strong at 10. M. the N.W. point being 10 1/2 miles distant when the Chronometer was 45.48.30 Lat here note is 8 1/4 1/10 lat early Lat by a good bar 9.14 P.M.

Saw Whales

Remarks Saturday 9th

Commenced with a calm and perfectly smooth sea at 2 P.M. took a breeze from the S.W. headed in for Gallien's beach at night sent the boat on shore after Turtle

Middle and Latter part a dead calm the N.W. point bearing from S.W. to S.E. from 4 to 6 miles off at 10 M. took off 11 Turtle more on shore, to be taken at next tide, Saw thousands of Black Fish Puppers, Humpbacks Green puppers and we think a School of Sperm Whales but am not positive, however very likely and I think God we may get a good fair of Seal to our use

Remarks Sunday 1st 1833

Commenced with calm weather at 4 P.M. took a breeze from the South at 4 P.M. The boat returned with the remainder of the Purcell being 14 in all made all sail from the Lane at 6 P.M. The western most in sight here South 10 miles distance Easternmost 8 1/2 14 miles, Middle part moderate airs from the North at daylight headed to the East at 10 M. The N.W. part of the Island here South 9 miles distance Lat 6 9 13

Remarks Monday 11

Commenced with moderate airs from the N.W. with pleasant weather and a remarkable smooth sea, at 6 P.M. the North part of the Island here South 10 miles distance at 9 P.M. the line started to the N.E. towards Ship to the N.W., please God we may see Whales to morrow and get a good catch is the means of William Markette Middle and latter part moderate breezes from the N.E. and N.W. with pleasant weather and a smooth sea employed mending the Store Boat Lat 6 30 30 South

Remarks Tuesday 12

Commenced with moderate breezes from the N.W. at 1 P.M. took to the E.H. and East, at 2 M. the line started to the S. at daylight saw a bark and shortly after saw a nother Sail a long way off Lat 6 48 South

Remarks Wednesday 13

Commenced with calm weather at 6 P.M. took a breeze from the E.H. steered on a line to the N.E. the two Sail in sight, see this morning Middle and latter part moderate variable airs and calm Lat 6 40 30

Remarks Thursday 14

Commences with moderate airs and calm
at 4 P.M. took a breeze from the S.W. Longitude
by Chronometer $45^{\circ} 48'$ Lat. saw nothing remarkable
but Porpoises, although the water full of hake
Mistral and Laiter part light airs and calm
Latitude $8^{\circ} 59'$ South

Remarks Friday 15

Commences with moderate airs from the S.W.
Longitude at 4 P.M. $45^{\circ} 29' 30''$, heaved to the S.W.
Mistral part moderate breeze from the S.W. and S.W. Laiter
part calm Latitude $9^{\circ} 25'$ South

Remarks Saturday 16

Commences with calm weather, Longitude at
4 P.M. by Chronometer $45^{\circ} 51' 15''$ Lat. Took a small
breeze from the N.W. heaved to the East, saw
Black Fish

Mistral and Laiter part moderate airs from the
S.W. Latitude $9^{\circ} 57'$ South

Remarks Sunday 17 Month

Commences with moderate breezes from the S.W.
Longitude by Chronometer at 4 P.M. $46^{\circ} 30'$ Lat.
please God we may see Whales tomorrow and
get a good haul is the prayer of William Golshof
Mistral and Laiter part moderate breezes
from the S.W. Latitude by bar $10^{\circ} 21'$ South

Latitude $18^{\circ} 11'$ South

Remarks Thursday 25th

Commenced with strong breezes from the South
with clear weather Longitude at 4 P.M. by Chronometer
 $40^{\circ} 18' 15''$ East Latitude South, At 10 P.M. saw but
numbers of Porpoises, Please God we may see Whales
to morrow and get a good catch, Middle and South
port fresh breezes from the South Latitude $19^{\circ} 11'$ S

Remarks Friday 26th 1833

Commenced with fresh breezes and clear weather
Longitude at 4 P.M. $37^{\circ} 52'$ East, Middle and South
port fresh breezes from the South Latitude $20^{\circ} 19'$

Remarks Saturday 27th

Commenced with fresh breezes from the South
Longitude at 4 P.M. $36^{\circ} 44' 30''$ at 6 P.M. doubled
except the Top Sails hauled the Jib and Sprit Sails
at 10 P.M. sounded no bottom 50 fathoms at
12 headed off to the East at 3 M. tacked to
the N. at 3 M. saw two bright Whales going to

Law Cape Baranette bearing S by E 60° N
at 10 AM soundings 18 fathoms and decreased
gradually as we stood to the N. At
12 Monticlon had 12 fathoms and Cape
Baranette bearing South by E 60° N 7 miles
distance when the Lead by was 21-20 fathoms

Remarks Sunday 28

Commenced with fresh breeze from the
steering in to the S. Soundings gradually
decreasing - from 12 at noon to 11-10
9-8 fathoms at 2 PM tacked to the
S 68 Cape Baranette bearing S 68° E 7 miles.
depended the hunter gradually for a short
time in standing for the Cape but suddenly
altered when the Cape bore ^{3 miles distant} S 68° from 12
fathoms in 9-8-7 on narrow sand ridges
of small extent not more than the length
of a ship's beam and then aspendent to
fathoms, steered to the N 8 with the lead
continually bore passed over a number
of the sand ridges as mentioned above
in 5 fathoms being the sand in the bottom
very plain At 4 PM when the Cape bore
S 68° west 6 miles distance being 7 fathoms
on the outer sand patch and suddenly
deepened to 15 fathoms pulled up S 68° E.
Longitude by Chronometer at 3-30 PM
when the Cape bearing South the true bearing
was 35° 44' 45", which makes the Longitude
by the Chronometer too far East 10 miles, if the Long.
of Cape Baranette is correctly laid down on the
Chart. Chronometer shows this day 34 1/4 of 9 AM time

Repairing the Mizen Top Sail this day
This I mention to know when, for my own
satisfaction it has repaired & sent

Thence a ship intended to re-
fresh at the Augustine Bay
passing over the last straits
for Thence is Lawrence and Frank
bottom & bottom on known Muddy
Green Bottom is generally good
for a week - But Thence
will bring any article and
is the best of anything to be
bought

It is necessary to have getting
in to the shore to have
settled on shore but the time
and every other time
about a this week, as they
are the first to know their
way and
it has been a customary
thing to prevent some of them
with some small articles but
they will bring 12-14 but the
all great custom

Information received from
left Topping of the ship Mary
from the Cape of Good Hope
with the above ships at
the same place

3 some and some had sailed
before the above ships

Some landing the above ships

Ship Sapon at St. Augustine
 Bay August 22 in company with the following ship
 Miss Philip Lake - Bonin
 Limerick Packet Bennett
 Jasper - - - Adams
 George - - - Wright
 George - - - Wright
 August 22 1833
 This certifies, the bearer of this Capt Douglas
 is one of the principal chiefs or leading men at the Lent
 he having more stock than any other man, I therefore recommended
 him to be as good a person to trust as any other man of the tribe,
 they all possess a large share of both cunningness and much
 address to theft.

Therm. at St. Tuesday 11
 Commences with small breezes from
 the North and West pleasant weather Long
 at 4 P.M. by thermometer ^{Wind} 29° 30' high, rain
 and we shall get a breeze soon and get
 along to the Melence.

Midday and Late Portmadoc
 breezes from the North and West -
 Late bar 33.43

[Faint, mostly illegible handwritten text, likely bleed-through from the reverse side of the page. The text appears to be organized in columns and rows, possibly a ledger or account book.]

Number of Whales and quantity of Oil obtained on board Japan

Dates	Crew	Whale	Latitude	Longitude	Head	Body	Total amount
1832							
June - 28	1		37° 50'	44° 20'	9	25	34

This oil is shipped to America from Laysan.
 Not shipped but landed in the above place
 to be shipped to America on the arrival
 of the American console brig which will
 be here in 2 months.
